Personal Enhancements: Skin Solutions

By Sylvia Hidiroglou

There's more to healthy-looking skin than meets the eye. Some folks are simply "blessed" with flawless skin, while others are blessed with the appearance of good skin. Either way, a certain amount of attention is required in order to maintain healthy-looking skin. "The skin is much more than just a wrapper for the body...it's a tell-tale symbol of a person's health" acknowledges Robert Bernard Heiman, founder of "Epicuren skin treatment."

So, how can we maintain healthy-looking skin? Perhaps our ability to eradicate pollution or the inability to change the pace of our busy lives may limit the extent to which we can attain flawless skin. Nevertheless, we can certainly nourish and nurture our skin. It takes a can-do attitude and a willingness to self-invest. In tending to our typical skin concerns (such as acne or aging), we may seek medical treatment in one place and skin care treatment elsewhere. That's what makes Skin Solutions, Inc. a truly unique experience. It's a medical skin care clinic that offers a "one-stop shop" for both men and women. From simple treatments to sophisticated techniques, Skin Solutions, Inc. offers an impressive menu for skin treatments and therapy. If you're interested in facials, choices include deep pore cleansing, oxygen treatment, and aromatherapy. If peels appeal to your skin type, you may want to experience a pumpkin peel or organic peel. Laser hair removal is available for underarms, back and shoulders, chest, legs, face, arms, and bikini area. Thinking of treating yourself to a full body treatment? Go for either the Lemon & Sea Salt Rub or an ancient elemental therapy. If you've ever thought about waxing and tinting your lashes and/or eyebrows, this may be good place to start! Skin Solutions also offers a variety of massage treatments including hot stone massage, deep tissue, aromatherapy and reflexology. If you'd like to treat scars, stretch marks, sunspots or bumps, ask about micro dermabrasion techniques. If you're in search of the "California look, you may be closer to Hollywood than you think! "Epicuren", an enzyme treatment designed to lift and tighten skin, was developed by a biochemist to treat his irregular skin pigmentation. Today, Epicuren facials are in popular demand by Hollywood stars such as Sex and the City's Sarah Jessica Parker. Other skin care remedies available at Skin Solutions include Botox, a procedure performed by a Board Certified M.D., typically used for frown lines and crow's feet; permanent makeup for eyebrows, lips and scar camouflage; laser wrinkle and laser vein treatments, and cellulite and collagen treatments. Skin Solutions also offers packages for special events, including weddings.
